	This Quick Reference consists of 1 Page

This Quick reference lists the MUT III CD-Rom's and the sequence to re install the MUT III program back onto the computer in the event that a reimage is required.

The recovery image "MUT III Recovery Image CF29 and CF30 Version 1.00" is the base image and all previous CD-Rom's are no longer applicable.

MUT III CD-Rom Installation Sequence Table:

SEQUENCE	DISC DETAIL	GENERAL LETTER	LOADING TIME (ESTIMATE)	COMMENTS
1	MUT III Recovery Image CF29 and CF30 Version 1.00 (3 disc set)	GL-09-010	2-3 hours	Base image **Note: Contains MUTIII Software PRA09061 and workshop manuals issued up to September 2009**
2	PRA09061 Update disc	GL-09-017	10 Minutes	Updates image reader programme **Note: Must be loaded after MUT III recovery image**
3	PRA10061 Update disc	GL-10-010	30 Minutes	MUTIII Software update
4	CD 3A10061	GL-10-009	5 Minutes	ECU Reprogramming data

Notes:
- Not all MUT III discs are shown, only those required for recovering from the base image to the current version for MUT III software and ECU reprogramming.
- Please ensure the General Letter is read in conjunction with the corresponding CD-Rom being loaded
- If the MUT III software is uninstalled ALL workshop manuals will need to be reloaded if the MUT III Recovery Image is not re-installed.
- MUT III discs should be installed as they are received.
- Workshop manuals should be installed as they are received.
